Late and Important Reduction in Postage.

We congratulate our subscribers and the reading public generally, on the cheapness with which they can now receive our re-prints by mail. The postage hitherto-although gradually reduced since 1844--has always operated as a discouragement to their circulation in places inaccessible by expresses or other modes of regular private conveyance. Hence as yet they have obtained but a comparatively meagre mail cir-culation. We hope, now that the postage is merely nominal, a new impetus will be given to these valuable works, and that no Post Office within the United States will remain unvisited by one copy at least of the Four Reviews and Blackwood's Maga-

To show the great reduction in the rates of postage since 1844, we subjoin the fol-lowing table:

engravings.
It is useless for the publisher of Godey's Lady's Book to make any great parade of what he intends to do. The work has been before the public for twenty-three years, and it is a well-known fact that the latter numbers of a year are always superior to the commencing ones, as he improves: with the expense with which each monthbrings him, seizing every new feature of the day and imparting it to his subscribers through the successive numbers of the book.

Nothing but real worth in a publication could be the cause of so prolonged an existence, especially in the literary world, where everything is so evanescent. Hun-

Many persons, who seek no further than our title, presume that the "Lady's Book" is intended merely for the amusement of a class, and that it does not enter into the discussion of those more important questions connected with the realities and the duties of life which every well-informed woman, mother and daughter, should be acquainted with. But such is not the fact. It is now, as it has ever been, our constant care to combine, in the pages of the "Laty's Book," whatever is useful, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and in-

The expense of one number of the "Lady's Book," including steel engravings and literary matter, paid for, not taken from English magazines, far exceeds that of any other magazine published in this country. We make no exception, and are willing to have the fact tested.

Each number of the "lady's book" contains at least three engravings from steel plates, engraved by the best artists, either in line, stipple, or mezzotint, and sometimes four.

Godey's reliable fashion plates are published monthly, and are considered the only really valuable fashion plates that are published. They have been the standard for over twenty-two years. in addition to the above, every month selections from the following are given, with simple directions that all may understand :-

Undoubted receipts, model cottages, model cottage furniture, patterns for window curtains, music, crochet work, knitting, netting, patchwork, crochet flower work, hair braiding, ribbon work, chenille work, lace collar work, children's and infant's clothes, capes, caps, chemisettes-in fine, everything that can interest a lady will find its appropriate place in her own book.
